${ }^{1}$ Based on independent certified laboratory testing of single doors per AAMA/WDMA/CSA/101/I.S.2/A440. Field results will vary based on size, test methods, accessories \& conditions

## STANDARD FEATURES

- Thermal strut thermal barrier for enhanced performance and dual finish capability
- Straight or integral exterior beveled glazing legs for design flexibility
- Wet glazed with structural silicone for maximum seal strength and water resistance
- Adjustable hardware with multi-point locking and interior thumb turn dead bolt
- Adjustable aluminum butt hinges finished to match doors
- ADA compliant sill (requires suitable substrate design)
- Single or twin (with integrated astragal) configurations using automatic head/sill shoot bolts
- AAMA 2603/2604/2605 painted or AAMA 611 anodized finishes

## OPTIONAL FEATURES

- Dual glazing with removable access panels (allows for vandal resistant polycarbonate glazing or 5/8" deep integral blinds)
- Exterior applied or between the lites of dual glazing muntin grids
- Exterior and/or interior key cylinders, surface applied door closers
- Hurricane Windborne Debris Impact Resistance (Large Missile)

## Series 920i

## Terrace Door

$31 / 2^{\prime \prime}, 41 / 4^{\prime \prime} \& 5^{\prime \prime}$ Frame Depths
